

CURRICULUM VITAE

R. Steven Rogers, E.M.T. – B

I PERSONAL INFORMATION:

Office Address: 707 3rd Street North
Minneapolis, MN 55401
Telephone: 612-521-9000
Cell: 612-414-2066
rstevenrogers@gmail.com

II PROFESSIONAL EXPERIENCE:

Licenses:

State of Minnesota Protective Agent license #341

Minnesota Emergency Services Regulatory Board: EMT # 278386 1997-current

FCC Restricted RTO license, 1987

Firearms Education & Experience:

PlusP Technology (1994-2005):

I began training with Plus P Technology in 1994 with Darrell Mulroy and Julio Santiago. I attended all courses offered repeatedly, eventually becoming an Assistant Instructor in 1998. In 2001 I became an Instructor, and in 2003 was appointed Director of Operations following the death of Mr. Mulroy.

These formal courses included basic handgun, advanced handgun, shotgun, night shooting, and a wide variety of specialized course work, including shooting from behind, into and through vehicles to determine efficacy of various weapons in vehicle related combat.

Pistolcraft, Inc. (2003 – Current):

Upon the dissolution of PlusP Technology I formed Pistolcraft, Inc. to provide a home for the best instructors from PlusP. Pistolcraft is a certifying organization under the Minnesota Bureau of Criminal Apprehension, being qualified to certify instructors under the Minnesota Personal Protection Act (MPPA) (MN Stat 624.714)

My certificates allow a person carry in over 30 states through a combination of permits from states who accept my instruction, including Florida, New Hampshire, Virginia, and several others.

I have taught firearms skills and the lawful use of force to a wide variety of persons and organizations, including but not limited to; civilians, police, fire, EMS, attorneys, judges, and the training of a military weapons of mass destruction unit.

The courses offered through PlusP and Pistolcraft include a significant legal component; use of force statutes and case law, the legal ramifications of the use of force both criminal and civil, as well as other costs (emotional, financial, employment, personal) that come into play when force is used. *All courses center on the basic concept that true self-defense is awareness and avoidance, and the use of force represents a total breakdown of your self-defense plan.*

I have also conducted significant research into the psychology and physiology of combat, an area that few others in this field study or teach. I have also studied the use of rifle, suppressed weapons, and fully automatic weapons through study with a variety of instructors including Front Sight, Hero Gear, and Oleg Volk, in addition to extensive private training in several states.

I have comprehensive experience with reloading and the behavior of various types of ammunition under a variety of conditions through testing in a wide range of applications, as well as skills in gunsmithing.

I also own and operate **Force Management Academy, Inc.** which specializes in the training of awareness, prevention and unarmed self-defense for EMS, fire, police, and civilians.

COURT APPROVED EXPERT WITNESS:

MN V. Mock – May, 2009

MN V. Xiong – August, 2010

LEGAL CONSULTANT / EXPERT:

WI V. VanBlaricom – MAY 2012 (Defense, explosives / IED)

MEMBERSHIPS:

Gun Owners of America, Member

Jews for the Preservation of Firearms Ownership, Member

National Rifle Association, Member, Instructor

Emergency Medical / Management Education and Experience:

➤ **EMT-B, 1997**

I have been a licensed EMT since 1997; I am currently a certified American Heart Association Basic Life Support Instructor (which includes civilian and Professional Rescuer CPR, AED, and First Aid including Pediatrics) and have often taken more continuing education than is required to maintain my license.

➤ **AHA BLS Instructor Certification, January, 2013**

Courses I am qualified to instruct with this certification include:

CPR & AED (layman): Adult, child, pediatric

CPR & AED (healthcare / professional rescuer): Adult, Child, Pediatric

First Aid: Adult, Child, Pediatric

Bloodborne Pathogens

➤ **American Heart Association, Core Instructor Curriculum ID# 1-2153286**

➤ **NWS Skywarn Storm Spotter June 9, 2012**

➤ **Medical Coordinator**

I currently serve as the Minnesota Medical Coordinator for a number of martial arts organizations. With USJI, I operate under the rules and regulations of the Olympic Sports Medicine Subcommittee on Judo, on which my Medical Director sits. I am currently helping to author their head trauma policy as well. I am responsible for training and supervising all medical personnel in standing orders, patient care, and more. Organizations are as follows:

USJA – United States Judo Association

USJI – United States Judo International

AAU – American Athletic Union

U of M – University of Minnesota’s Judo Team

Minnesota Martial Arts Academy’s Submission Hunt.

This is the largest martial arts tournament in the Midwest. I was responsible for all medical protocols and patient care. I also was required to establish and provide the necessary supplies.

➤ **Graduate** - American Motorcycle Association Course Marshalls program.

This program certifies one to work and manage operations during AMA motorcycle races. I also participated in fine tuning of the program in 2002-2004

➤ **Central Roadracing Association:**

The CRA is a non-profit motorcycle road racing club located in Minnesota. They are known nationwide for having one the very best safety records in the United States for this sport.

From 2001 – Present I have served as Emergency Medical Response involving direct response to incidents on track as well as being the Assistant Chief of Medical for a portion of that time. As Assistant Chief of Medical, I was responsible for training medical responders in all aspects of their duties

including standing orders, patient care, track safety protocols, requesting assistance, stopping races, and much more.

I have served as an advisor to the President and the Board of Directors since 2004 on medical, liability, business and tax issues. I have also been the liaison with the clubs attorney for many years. I served as assistant treasurer from 2004-2008.

I also serve as Chief of Corporate Governance; duties include the managing of all corporate elections, education and training of directors, and consulting on security and other matters.

- **Volunteer**, Oak Grove Elementary School, Bloomington ISD#271
I served as the volunteer medical staff person for after school events in 2012
- **Volunteer**, Poplar Bridge Elementary School, Bloomington ISD#271
I served as the volunteer medical staff person for after school events in 2011.

Certifications:

- **AHA BLS Instructor Certification, January, 2013**

American Heart Association Basic Life Support Certified Instructor in the following disciplines:

CPR & AED (layman): Adult, child, pediatric

CPR & AED (healthcare / professional rescuer): Adult, Child, Pediatric

First Aid: Adult, Child, Pediatric

American Heart Association CPR for Healthcare Providers, 1997-current

X-Collar Application Certified, March 2012

Brain Trauma Foundation: Prehospital Management of Traumatic Brain Injury,
July 2004

ACCREDITED INSTRUCTION:

Instructor: *Threat Assessment and the use of force for EMS Personnel*
Inver Hills Community College Paramedic Program
Inver Hills, MN 2008 – 2012

MINNESOTA BOARD OF PRIVATE DETECTIVE AND PROTECTIVE AGENT SERVICES:

Courses approved by the Board:

- Basic Handgun / Permit to Carry (My Curriculum)
- First Aid (American Heart Association Curriculum)
- CPR for Adult & Child (American Heart Association Curriculum)
- Intermediate First Aid for Traumatic Injuries (My Curriculum)

LECTURES AND PRESENTATIONS:

Guest instructor: *Medical protocols, trauma assessment, medical assessment, oxygen administration, spinal stabilization.*

Long Lake Fire Department
Long Lake, MN – August, 2010

Speaker: *Helmet and Race Equipment Removal*
Hennepin Technical College EMS Education Department
Hopkins, MN - 2003-2008

Speaker: *EMS in a Hazardous Environment*

Hennepin Technical College EMS Education Department
Hopkins, MN - 2003-2008

SEMINARS ATTENDED:

Freeway operations and Road Safety, 2004, MN State Patrol

Intubation obstacle course, 2004, North Memorial summer conference

Protective Experience:

➤ **Director of Operations, Proxy Communications 1993-97**

Responsible for ensuring the security, integrity and lawfully executed distribution of Securities and Exchange Commission regulated shareholder materials for publicly traded companies. Our clients ranged from small corporations, to companies worth several billion dollars. At the time, we were the only private company outside of the major banks to be entrusted with this responsibility.

➤ **Director of Security / Public Policy Aide - Barb Davis White for Congress
October, 2007 – November, 2008**

I was the sole person responsible for all security related matters. This required involvement in all strategy and event planning meetings, advancing venues and all physical security. I also advised the candidate on public policy matters and formulated communications to convey those positions accurately.

➤ **Minnesota Director of Security, 2008 Ron Paul Presidential Campaign
&**

➤ **Minnesota Director of Security, 2012 Ron Paul Presidential Campaign**

I was responsible for close protective detail (armed) for all events in Minnesota. Amongst others, I performed the following duties;

1. Advancing of venues
2. Planning evacuation routes
3. Design of emergency response plans
4. Crowd control
5. Traffic management
6. Design and staffing of Venues and secured areas
7. Hiring of private security and law enforcement personnel
8. Co-ordination with event production planners, law enforcement

I reported directly to the National Security Director.

➤ **Executive Protection - Rand Paul, April, 2009**

Duties included close protective detail during all events including the Constitution Party of MN banquet, private meet and greet, breakfast, and a public rally at the Federal Reserve Bank in Minneapolis. Dr. Paul was the keynote speaker at several of the events.

➤ **Executive Protection – Congressman Ron Paul and Congresswoman Michele Bachmann September, 2009 – Young Americans for Liberty Townhall**

I was the Congressman's sole protective agent at this event, as Congressman Paul was between Presidential campaigns and had no traveling protection. Duties included staffing all positions, crowd monitoring during speeches, securing backstage areas, coordinating with local law enforcement to control public areas, Securing entrances and vehicle access areas, close protective detail during public interactions for photos and autographs, de-escalation of several situations that occurred during the autograph session, and much more.

➤ **Member, Safety Committee, Oak Grove Elementary, Bloomington ISD #271**

This committee consists of Representatives from the staff of Oak Grove, the Principal, the district's Executive Director of Community Relations / Emergency Management Coordinator, 4 parents, and myself.

After the Sandy Hook shooting, the district and the school were seeking advice from select individuals on school safety and their crisis response plan. I offered several significant changes to the currently accepted model which have been adopted, and have put them on the forefront of incident response.

MEMBERSHIPS:

ASIS International, Member 2012-Current

SEMINARS ATTENDED:

Institute of Terrorism Research and Response, October 9, 2013

Command Considerations to Terror Response

BCA Headquarters, 1430 Maryland Avenue East, St. Paul, MN 55106

When terror or emergency strikes, the commander in the field is on their own. Real-time events do not allow procedure-checking in the books, and things are always more fluid than in procedure- because of this field commanders need to know all of the challenges, threats, and windfalls that he or she may have when things get real. With a requirement that responders must safely conduct appropriate response actions during the pre and post detonation periods of a terror incident, the lecture will address the hazards associated with terrorist

incidents and include considerations for the critical tasks associated with scene safety and security.

First responders can benefit from utilizing the research done on terrorism prevention and integrate it into daily work. The presentation will include case studies and command concepts of emergency management, law enforcement, fire rescue and pre hospital and healthcare response focusing on response to a mass casualty and terror incident. The lecture will provide attendees the opportunity to understand the integrated response system within Israel.

Steve Scott April 2011 Juji Gatame, ground fighting, control holds, arm locks,

Steve has personally coached 3 World Champions, 2 Pan American Games Champions and 58 National AAU Champions in the sport of sambo. He has also developed numerous judo champions at his Welcome Mat training center, including a member of the 1996 U.S. Olympic Judo Team, almost 100 individual athletes who have won National Judo Championships and numerous athletes who have been members of official U.S. teams in international competition including the World Championships, Pan American Championships, World University Games and other events.

Mark Menter, Owner Delta Protective (Ret). - February 2011

Handcuffing including control holds, arm locks, resistive suspect techniques, transfers to Law Enforcement personnel and more. This full day course consisted of strictly dynamic exercises, no lecture was involved.
